## MICROFUTURE

**Objective:** To use interregional learning to improve public policy frameworks supporting **microfinance as a strategic tool to address social inclusion** and adapting to new policy and market requirements.

**Partners:** public authorities from **Romania, Italy, Slovenia, Sweden and France**.

**Advisory partner:** **Yunus Foundation Italy** will help create policy frameworks that encourage socio-economic recovery, making room for the social economy and ensuring that the microfinance multiplier-effect can amplify positive social, environmental and economic impact.

*Specific priorities: **social enterprises, students, rural areas, most socially excluded people** and exploiting opportunities in high-potential sectors.*

*Expected impact: to improved policy frameworks to make a real difference in participating territories in terms of quality labour market opportunities for vulnerable populations and micro-enterprises.*
